书面表达 (共1小题 , 共20分)

33. 【答案】 On May Day, our class went to Sunshine Nursing Home and did some voluntary work.

On our arrival, we were warmly welcomed. We presented the elderly with our gifts.

We discovered that the grass and flowers grew well, and the surroundings was quiet.

Then our teacher permitted us to work at once, clean the windows and sweep the floor.

With everything done, we sat in the yard chatting with the elderly. Before we came, they were unhappy for lack of time spent in chatting with young people.

When it was time for us to leave, the elderly thanked us for our kindness. We all expect they will have a happier and healthier life.
